

REMARKS

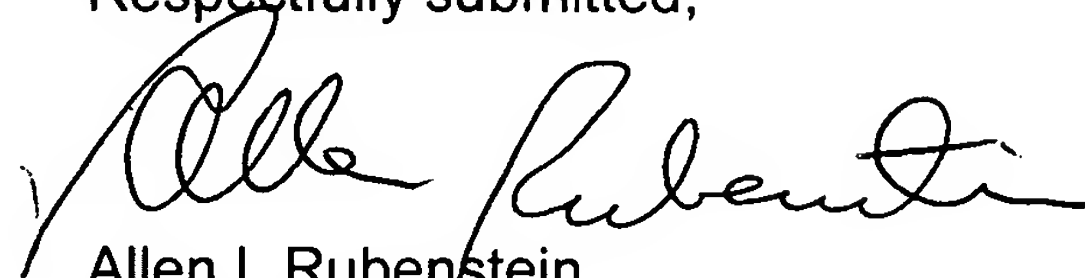

This is in response to the first Office Action mailed March 25, 2005. The applicant notes that a Preliminary Amendment was filed March 29, 2004, which anticipated and corrected many of the informalities noted by the Examiner. In particular the application has been amended to conform typographical details to common practice, such as eliminating internal periods and quotation marks from the claims. In addition where alternatives are mentioned in the claims they are now stated in terms of selection from a group consisting of identified elements.

The applicant has modified the language of claim 3 to eliminate what the Examiner considered speculative language. Accordingly the application is now in condition for allowance and should be allowed at this time.

The Examiner is authorized to charge any additional amount necessitated by this amendment, including any charges for extensions of time to allow consideration of this or any future reply requiring a petition for an extension of time, to deposit account 07-1730. This authorization should be treated as a constructive petition for such

extensions of time, if any, as are necessary. In calculating such fees please note that the Assignee of this application is a small entity.

Respectfully submitted,

Allen I. Rubenstein
